

The network for the trades.

FOUNDING SUPPLIER PARTNER PROGRAM

Connect your brand with
the trades who'll buy from
you for the **next 30 years.**

A generational shift is here. Get your company in front of the apprentices and builders forming their brand loyalties today.

A generational shift is happening **now**.

Tens of thousands of apprentices are entering the workforce right now. They're building their habits, choosing their suppliers, and forming brand loyalties that will last their entire careers. Projekt Network puts your company in front of them — before your competitors do.

As a Founding Supplier Partner, you're not just advertising to them. You're supporting them — and they remember that.

What is Projekt Network?

Projekt Network is a free platform built specifically for the construction and skilled trades industry — not a general job board, not a generalist directory. It's purpose-built for builders, tradespeople, suppliers, apprentices, schools, manufacturers and industry partners to hire, connect, market and grow in one place.

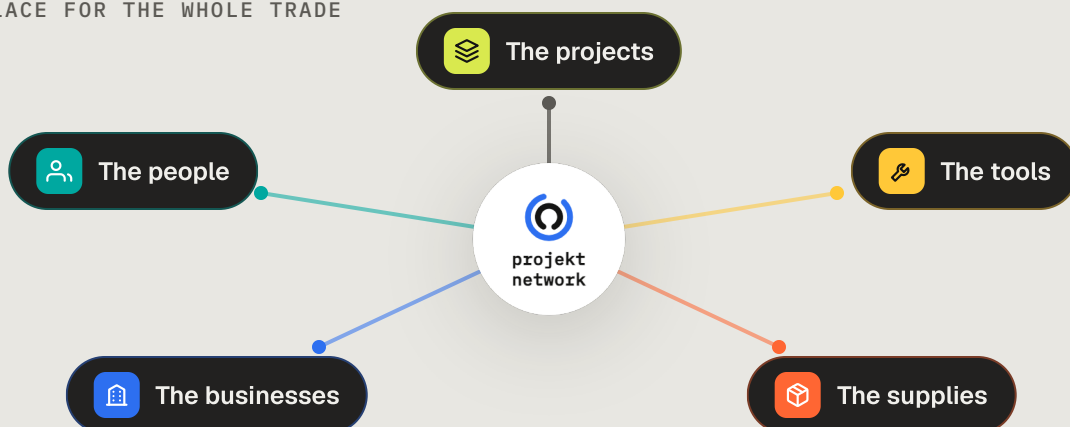

The platform is free

No cost to builders, tradespeople or suppliers to join and take part.

Growth by network effects

More participants means more value for everyone — including your company.

ONE PLACE FOR THE WHOLE TRADE

Nine ways we put your brand to work.

01

Launch Campaign

We write, design and publish your announcement across LinkedIn, Instagram, Facebook and Projekt Network. You approve it, we post it.

02

Showcase Video

Point Load Media produces a professional company video — who you are, what you sell, what sets you apart. Yours to keep and use anywhere.

03

Featured Profile

Your profile is built to 90%+ strength with Featured Supplier placement — the first thing builders see when searching suppliers.

04

Apprentice Tool Package

A starter tool program built with your products, promoted to apprentices and trade schools. They open a free PN account to unlock savings in-store.

05

Trade Spotlight Sponsorship

Sponsor one annual Trade Spotlight Month — social promotion, community recognition, and a gift card awarded in your name to a deserving tradesperson.

06

Referral Revenue

A unique referral code earns recurring revenue for every Premium Member you refer — paid monthly for up to 12 months per subscriber.

07

In-Store QR Program

QR codes and materials for your locations, driving member sign-ups and reinforcing your partnership with every customer who walks in.

08

Staff Education Kit

A simple package that gets your team up to speed on the platform and partnership — so they can answer questions and champion it confidently.

09

Onboarding Session

A dedicated session with Ian or Dave to walk your team through the platform, set priorities and get full value from day one.

Lock your category before the network **scales**.

\$2,388/yr

GUARANTEED 3 YEARS

Founding Supplier Partners lock in their category position at a special rate, guaranteed for three years — reserved exclusively for those who join before the network scales. Once we open to the broader market, this program closes and standard pricing applies. The suppliers who move first get the visibility, the relationships and the apprentice pipeline that late entrants won't.

Ready to talk?

There's no pitch deck to sit through and no obligation. Reach out directly — we'll walk you through the platform and the program in one conversation.
